Assignment 8

Create a Kanban board with columns representing different stages of development (e.g., To Do, In Progress, Review, Done).
Populate the Kanban board with the user stories, ensuring they are placed in the appropriate columns based on their status.
Your project plan should be concise and visually appealing, providing a clear overview of the feature development process using Agile planning techniques.

TO DO	IN PROGRESS	REVIEW	DONE
			US1: (SM – Soumyajit) - Implement user registration functionality.
			US2 : (SM – Soumyajit) - Loan Eligibility Check
			US 3: (D1-Sakshi) - Loan Application Form
			US 4 : (D1-Sakshi) - Document Upload
	US 5: (D2-Trupti)- Application Submission		
		US 6: (D2-Trupti)- Application Review	
		User Story 7: (Tester1- Surya) - Credit Check	
US 9: (D3-Ankita) - Loan Disbursement	US 8: (Tester1- Surya) - Approval Decision		
US10: (D3-Ankita) - Notification System			

User Story 1: User Registration Implement user registration functionality

User Story 2: Loan Eligibility Check Develop loan eligibility check feature based on user inputs

User Story 3: Loan Application Form Create loan application form with required fields
